If you'd like to develop and improve teaching approaches for your Core Maths students (Secondary Post 16+), get involved in our Developing Core Maths Pedagogy programme.

Working with fellow teaching professionals, you'll design and trial classroom activities to help your students build greater understanding and confidence in tackling problems set in a real-life context.

**Register your free place using our QR code (top left) or [click here](#).** There's no sign-up or course fees – the programme is fully funded\* through the Maths Hub Programme.

\*The Maths Hub programme is free for State schools/colleges only. Fees apply for Independent/private schools.
